NEXT-GENERATION HAND DRYERS

Design and technology for modern spaces

saniflow corp
a mediclinics company

ENERGY EFFICIENCY
Energetically efficient drying, enabling significant energy consumption savings.

TOTAL HYGIENE
Incorporating HEPA filtering medium, ionizer, and Biocote antibacterial additive (u-flow and Dualflow plus) that eliminate any harmful action

ULTRA-FAST DRYING
For quicker user turnover in each drying cycle, avoiding unnecessary waiting.

speedflow® plus

THE ELEGANCE OF HIGH SPEED

A solution that combines **eco-fast design** with compliance to **ADAAG accessibility standards**.
Quiet, comfortable, and with very low energy consumption.

ADA compliant

ALSO AVAILABLE IN PVD FINISH

Metal finish: Gold Copper Bronze Anthracite

U-flow®

A NEW FORM OF FREEDOM

The only hand dryer on the market that provides absolute **freedom of movement** thanks to its innovative shape, designed to offer a complete sense of **well-being and hygiene with each drying**.

DESIGN AWARD 2024 · GOOD DESIGN · EUROPEAN PRODUCT DESIGN AWARD

24/7 Plug-in technology · Removable water tank · ADA compliant

ALSO AVAILABLE IN COLORS CUSTOMISABLE

dualflow® plus

INNOVATION INHAND DRYERS

Innovative design and maximum **efficiency** hand dryer that makes it the ideal choice for select spaces. **Efficiency, hygiene, and safety** are found in hand drying at another level.

Brushless · Removable water tank · ADA compliant

machflow® plus

ENERGETICALLY EFFICIENT DRYING

Energy saving for effective drying, with and **without brushes**. Incorporates a **plug-in system** that facilitates maintenance and is available in a **variety of finishes**.

24/7 Plug-in technology · Brushless

ALSO AVAILABLE IN PVD FINISH

Metal finish: Gold Copper Bronze Anthracite
